REVOLTFUND: AI ACTION TOOLKIT
Surviving and Shaping the AI Age

✨INTRODUCTION

Why This Toolkit Exists:
The AI era is already here. Jobs are vanishing. Resources are being drained by data centers. Your data is being mined without your consent. And world leaders are barely keeping up. This guide is for everyone who wants to protect their rights, their livelihood, and the future of the planet.

This is your crash course to:
- Understand the crisis - Take meaningful action - Organize and educate your community - Influence policy and corporate behavior

No tech degree required.

🌿THE CORE RISKS

🦗Job Displacement

- • AI will automate millions of jobs across nearly every industry
- • Without proactive action, workers will be left behind

Data Exploitation

- • Your behavior, identity, and voice are being harvested to train AI
- • Consent is rarely informed, and compensation is nonexistent

🌍Environmental Devastation

- • Massive data centers consume more energy than entire cities
- • Water is diverted for cooling; emissions spike with every AI model

🦛Democratic Decay

- • Misinformation spreads faster with generative tools
- • Surveillance and algorithmic control erode autonomy

WHAT YOU CAN DO

As a Citizen

- **Educate**: Use this toolkit to hold a community meeting, print flyers, or host a screening of AI documentaries
- **Resist**: Opt for open-source tools; deny consent to data-mining platforms; use privacy browsers and VPNs
- **Support**: Mutual aid groups, worker co-ops, and local journalism

🐟As a Student or Educator

- Add AI ethics and data rights to curricula
- Encourage cross-generational learning about tech power
- Host teach-ins or skillshares on privacy and resistance

🌓As a Local/State/Federal Official

- Advocate for a pause on large-scale AI deployments
- Introduce bills supporting UBI, worker retraining, and ethical AI
- Protect community internet infrastructure from corporate monopolies

💧 As a Consumer

- **Switch browsers**: Use Brave, Firefox, or Tor
- **Search ethically**: Try Ecosia or DuckDuckGo
- **Buy mindfully**: Support companies committed to transparency and labor rights

---

VOTE WITH YOUR ATTENTION

- Avoid engagement with AI-generated disinformation
- Don't feed the algorithm: resist doomscrolling
- Share resources like this one. Start conversations.

🐒POLICY PRIORITIES

1. Regulate Big Tech

- Ban non-consensual data scraping
- Require environmental disclosures from AI companies

2. Guarantee Economic Safety Nets

- Push for **Universal Basic Income** (UBI)
- Fund large-scale **reskilling programs**

3. Establish AI Rights Frameworks

- • Right to explanation
- • Right to be forgotten
- • Right to opt out

🦜 DOWNLOAD & SHARE

This toolkit is free to copy, remix, and redistribute. - Host it on your local community website - Email it to your elected officials - Print it and post in libraries, coffee shops, and union halls

Join us: **RevoltFund.com**

CLOSING THOUGHT

What happens next isn't fate. It's policy, it's pressure, it's power. And we still have a say.
